

Tobin Farms Velvet Antler

Tobin Farms Velvet Antler

St. John's Wort Essential Oil Formula

\$49.00

St John's Wort is a rapidly spreading perennial, commonly found in Europe and the United States. It is especially abundant in the North Western United States, where Tobin Farms purchases its product from a Certified Organic Grower. The plants grow about one foot tall on erect stems with bright yellow flowers that have small black dots on their petals. Its botanical name is Hypericum Perforatum, with the common names being Johnswort, St. John's Wort and sometimes Kalamath Weed

There are more than fifty active elements in this plant that include flavonoids, tannins and procyanidins.

When Tobin Farms St John's Wort Essential Oil is applied to the skin, it is delivered within seconds into the bloodstream and bypasses the digestive process. Because essential oils are very concentrated, only a small amount is needed.

Our Tobin Farms St. John's Wort Essential Oil is:
